Mr. Brad Peterson
Vista Education Foundation
1234 Arcadia Ave.
Vista, CA 92084-3404

Greetings Mr. Brad Peterson,

I was awarded before my 2013 high school graduation a scholarship by the Vista Education Foundation for the dedication that I had placed into both my academic and extracurricular career at Guajome Park Academy. I would like to take this chance to give thanks, as well as reaffirm that this scholarship money is being put to good use.

The money that was give to me was all used in study related materials; I am currently enrolled in Mira Costa Community college, and am taking classes advanced for my level. Due to my scores on the AP and IB tests, I have been able to glide through these college courses with confidence and headstrong dedication. With the help of your scholarship, I have been enabled to succeed in college, and am planning on transferring earlier than usual to a University to finish a Bachelor's Degree in Astronautical Engineering, and then more education to follow for a Master's.

I am going to have a successful life because of my effort. I have made it my life goal and ambition to advance the world in the undiscovered wonders of science. The scholarship awarded to me had given me a chance to exercise this effort inside of me. You have given me the confidence and support for a successful life, and I am very, very grateful.

I aspire to inspire others to do as I have, and preserve the American Dream.

Thanks again,

Morgan McCune
