

Dear Mrs. Jones,

I would like to thank you for assisting me in furthering my education at the University of California at Riverside. I am grateful for your gracious contribution of \$500 and I assure you that I will utilize it in the best way for my education. Just to give you an insight of what I will be doing in college I would like to explain my plans for the next four years. I will pursue a major in Biology when I attend college in the fall, and I have also been accepted to a fully paid summer program there where I will develop a strong foundation for a medical career. After my general and major studies, I will apply to the University's medical school as well as others and gain the necessary skills to become a physician. I am currently a part of an Internship at Palomar Medical Center which I will still be engaged in even through my continued education. I would like to thank you again, and I assure you that I will not fail!

Sincerely, Mandeep Chhokar

A handwritten signature in black ink, appearing to read "Mandeep Chhokar". The signature is fluid and cursive, with a large, sweeping flourish at the end.
